

Overview

This document provides a guide for users on accessing masked and unmasked fields easily.

Step 1 (Mask View)

Scan the provided QR code. After scanning, you will receive a link that can be used to open the masked fields on the map.

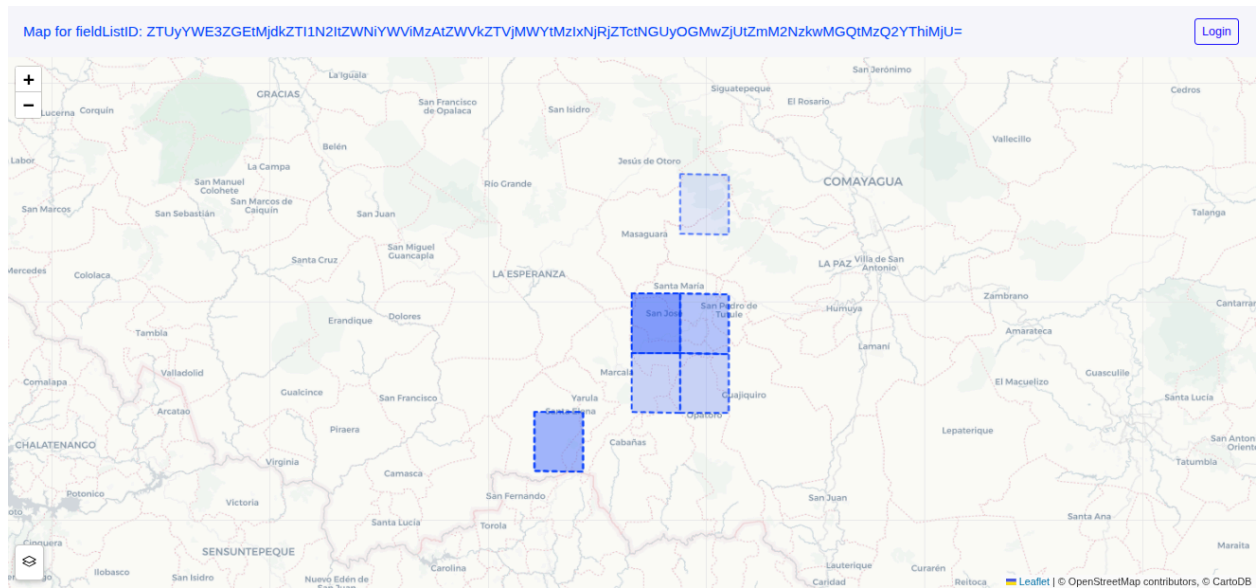

Example QR code :

Example Link from QR code :

http://147.93.45.127/fieldlistid_map.html?fieldlistid=ZTUyYWE3ZGEtMjdkZTI1N2ltZWNiYWViMzAtZWVhZTVjMWYtMzIxNjRjZTctNGUyOGMwZjUtZmM2NzkwMGQtMzQ2YThiMjU=

Upon accessing the link provided by the QR code, the masked map will be displayed as shown below.

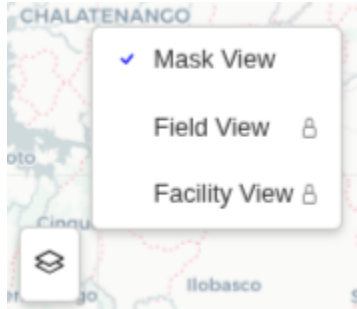

Masked fields are accessible for viewing without requiring a login.

Step 2 (Field View)

To access Field View, follow these steps:

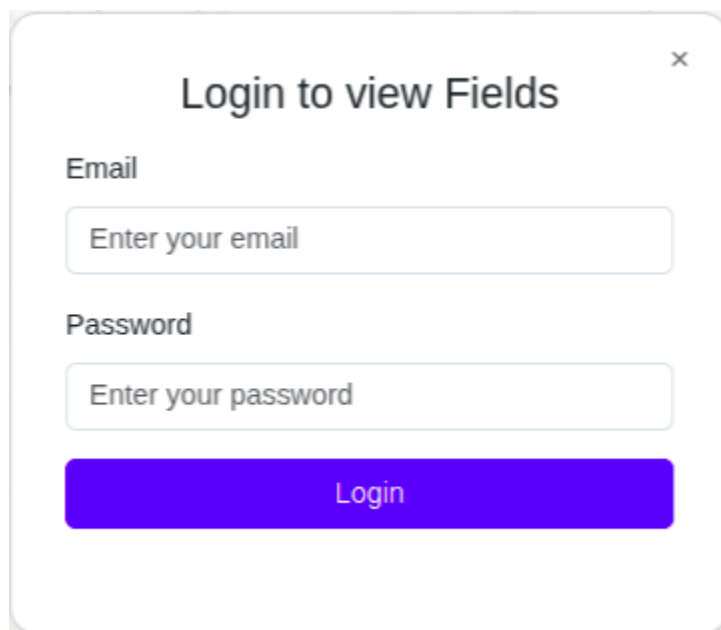

1. Access the View Options and Log In:

- Click the map layer icon  to open the view options

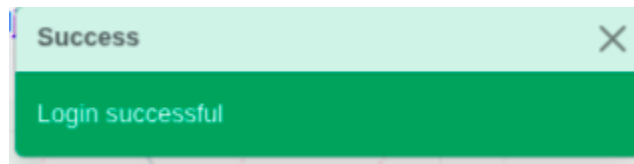

(The current selection is Mask View).

- Select the **Field View** option.
- A login modal

A screenshot of a login modal titled 'Login to view Fields'. The modal has a close button (X) in the top right corner. It contains two input fields: 'Email' with the placeholder text 'Enter your email' and 'Password' with the placeholder text 'Enter your password'. Below the input fields is a blue button labeled 'Login'.

your credentials. will appear. Log in with

- After successful login, a confirmation message will appear in the top right corner

The Login button

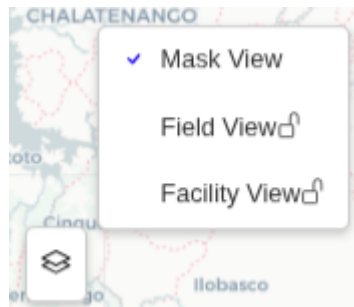

will change to Logout

confirming that you have successfully logged in.

2. **Select Field View Again:**

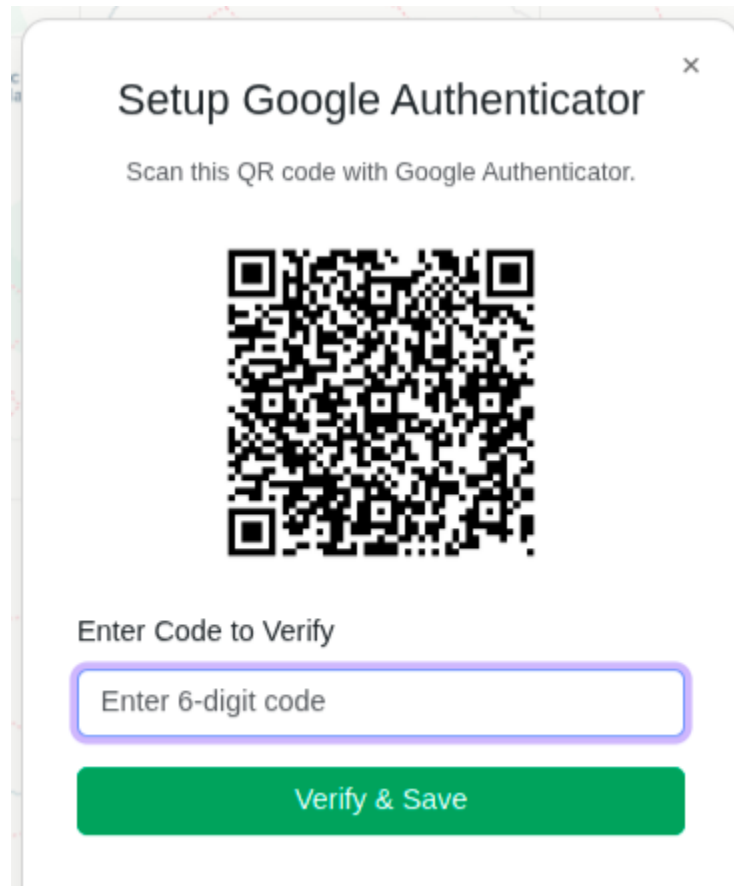

- Select **Field View** again from the map layer option. You will see that the views are now unlocked

- Click on the Field View option.

3. **Set up Google Authenticator (MFA):**

- A setup screen will appear

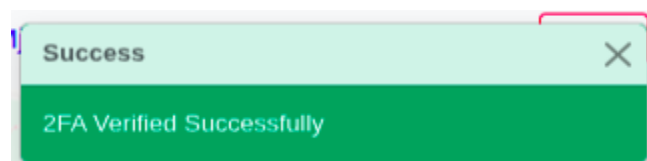

- Download the Google Authenticator app on your Android or iOS mobile device.
- Open the app and scan the QR code displayed on the screen.
- Enter the 6-digit code provided by the Google Authenticator app into the field below

the QR code, and then click **Verify & save**

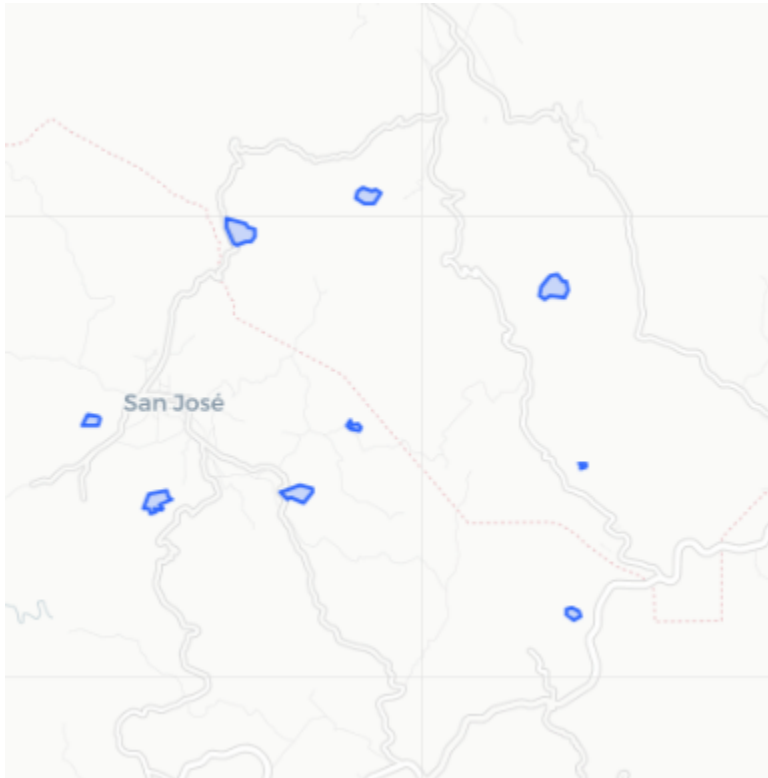

- A message will appear confirming that the code is verified.

4. View Fields:

- You will now be able to view the fields.

Note: The Google Authenticator code is set up for the current device only. The next time you log in, you will need to enter the 6-digit code from that device, which has the scanned QR code for Google Authenticator.
